Dear Susan,

At the most recent Medical Executive Committee meeting, it was brought to my attention that you have announced your resignation from St. Luke's Episcopal Hospital in order to pursue bigger and better opportunities.

First off, let me state how appreciative we, the medical staff, are for your leadership throughout this organization, paramount of which has been your involvement in and development of a thriving independent practice association. Your presence in this capacity, as I am sure in many others, will be deeply missed. Second, let me also comment that we are very happy for you and believe that you certainly deserve any career-expanding opportunity that you have been offered. I have the utmost confidence in your continued successes.

I hope this letter finds you well and that you do not become a stranger around the hospital as a result, although that is typically the way these things play themselves out, and understandably so. I have enjoyed our professional relationship and our friendship.

Congratulations again and remember what Fernando Flores said, "Great work is done by people who are not afraid to be great." I hope you enjoy your new endeavor and prosper in it.

Sincerely,

F. Lyone Hochman
Chief of Staff
Chair, Medical Executive Committee
St. Luke's Episcopal Hospital Medical Staff
